

Name: _____ DUE: _____

Teacher: _____

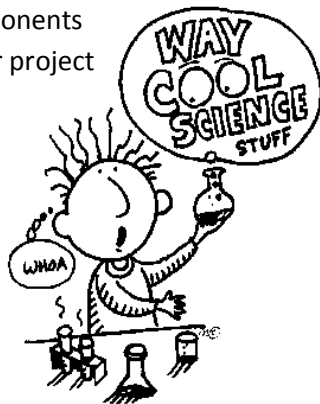

SENT HOME: Week of Nov 2-6, 2015

Thanks for submitting your Topic Selection Wizard activity. I have reviewed your three science fair project ideas and indicated which ones are approved.

Now it is time for you to decide which one you will use for the science fair.

1. **Review** all your approved project ideas with your parents using the Topic Selection Wizard activity and select your favorite one for the science fair.
2. **Go online to ScienceBuddies.org** to access your favorite project. Use the search engine located in the top right corner; type in your project title and click [search].
3. **Locate** your project title and click on it to open.
4. **Print out** your favorite project in its entirety (summary, background, materials, procedure ...) and staple.
5. **Write your name and teacher's name** across the top.
6. **Get your parent/guardian signature** next to the project title to acknowledge their commitment to supervise.
7. **Read and initial** the following components to get a good understanding of your project
 - Abstract
 - Objective
 - Introduction
 - Terms and Concepts
 - Questions
 - Bibliography
 - Materials & Equipment
 - Experimental Procedure
8. **Underline with red all safety concerns**, such as unsafe materials, steps and adult supervision or assistance
9. **Circle unfamiliar words, write marginal notes and/or questions** regarding your project and seek adult or teacher assistance for clarification or answers.
